

# ADAMIC TIMELINE

## CHARTS

---

In the beginning, there were no charts. The back of this book was void. Then the Spirit of God moved upon the heart of a man to chart the numbers that separated one event from another. With just the timeline in one hand and a calculator in the other, he assimilated major events from the scriptures, and blended them into the following. As a result, what is presented is only a reflection of God's creativity.

The only way we can know where we are in time is to start with Adam.

B.C. dates are only based on history and because of tradition, are often misplaced.
